STAY TUNED

The monograph

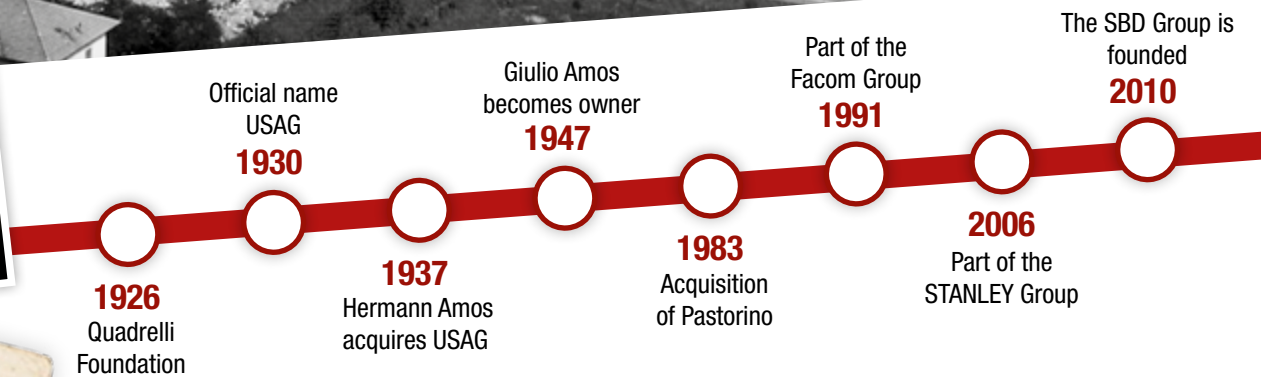

USAG celebrates 100 years of history, passion, and innovation.

To mark this anniversary, we decided to do something special: **an original monograph, unconventional**, designed and created especially for you. Not just a simple commemorative story, but a project capable of surprising you and offering you an experience unlike any other.

Are you curious? **Look for the USAG monograph**: you might discover something unexpected, containing much more than you imagine!

Deed of Incorporation of the Company

The story of our 100 years

The company was founded in Gemonio on April 1, 1926, through the initiative of Anselmo Quadrelli and Teresita Luraschi. From the very beginning, the production of hand tools came to life in the "Ca' Rossa," on a piece of land provided by Quadrelli himself.

In 1930, with the departure of the founder, the company took the name "Utensileria Società Anonima Gemonio" (USAG). The year 1937 marked a decisive turning point: the company was acquired by Hermann Amos, an entrepreneur of German origin born in Aquileia and residing in Milan, who began expanding the plant.

From 1947 to 1991, leadership passed to his son Giulio Amos, who played a key role in USAG's growth during the Italian economic boom, thanks to tools of great quality and reliability.

In 1991, USAG entered into the French group Facom; in 2006, it became part of the American group STANLEY and, since 2010, has been part of Stanley Black & Decker, a structure that still exists and operates in the market today.

Within this multinational context, the company has managed to maintain its identity and autonomy, strengthening itself through productive, technological, commercial, and marketing synergies.

ALL THE ADVANTAGES OF X-Grip TECHNOLOGY

DAMAGED SCREWS

X-Grip allows you to work effectively on both new and heavily damaged screws: the tool will not lose its grip on the screw, enabling you to continue with your work.

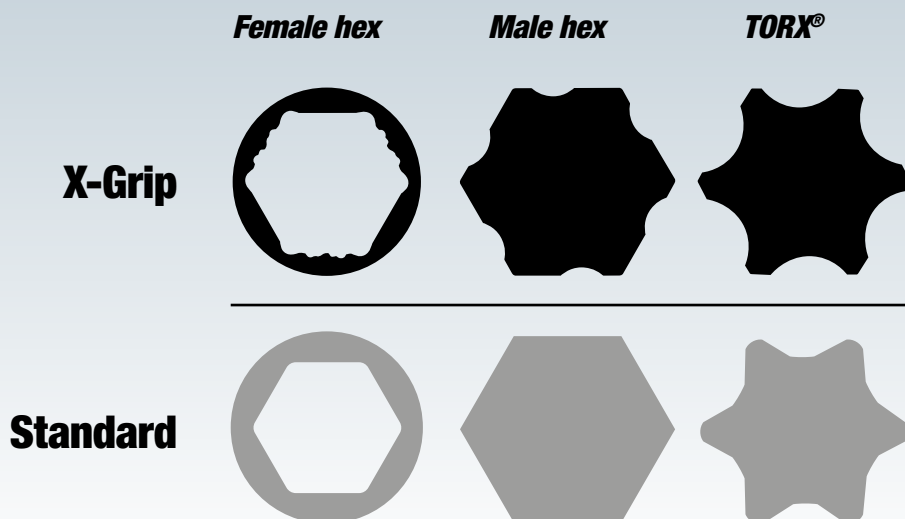

TORQUE TRANSMISSION

The grip that the X-Grip profile exerts on the head of a new screw allows for the transmission of a higher tightening torque compared to standard profiles. This is a real advantage when dealing with a new screw tightened with high torque, making it difficult to loosen.

PREVENTS DAMAGE

X-Grip profiles are designed to prevent damage to the profiles of new screws. By using X-Grip tools, new screws will have a longer lifespan.

YouTube

COMBINATION WRENCH 285 X

INCLINED OPEN END

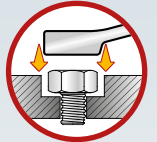

angled at 15° as regards to wrench axis.

DOUBLE T SECTION

Excellent resistance to flexion.

SPECIAL RING SHAPE

Ideal for operations on nuts difficult to reach.

+30% LONGER THAN A STANDARD COMBINATION WRENCH 285

It allows to apply a torque of 30% higher than the standard key.

SPECIAL X-Grip PROFILE

Effective even on heavily damaged screws. On new screws, it transmits greater torque and preserves the screw profile's lifespan.

THE PRODUCTS

285 KA REVERSIBLE RATCHET COMBINATION WRENCHES

PIANO WIRE STEEL RING INTEGRATED

keeps the position on the nut during the operations.

Page
52

STATIC TORSION RESISTANCE
+ 30% torque compared to the value required by ISO rules 3315 because of the patented pawl..

FATIGUE RESISTANCE

Lasts twice than the other ratchets on the market because of IP51 protection.

Page
53

237 A REVERSIBLE RATCHET

443 N OIL-FILTER WRENCH

AUTOMATIC BELT CLAMPING

Page
80

THAT MAKE THE DIFFERENCE!

324 SCREWDRIVER

REINFORCED BLADE

Chrome Silicon Vanadium steel that allows the best mechanical resistance.

TOP PERFORMANCE TIP

Zinc finish. Perfect shape. Treatment against corrosion.

Page
49

TOP-LEVEL CUTTING

Can cut up to 2 mm piano wire with 30% less effort in comparison to the maximum value stated on the European rules ISO5749 (cutting nippers) - ISO5746 (pliers).

150 AX COMBINATION PLIERS

Page
54

280 T T-KEYS

GUARANTEED SAFETY

+ 30% resistance to torsion compared to ISO 2936 rules. When the breaking torque is reached, the key will deform without breaking.

Page
51

285 COMBINATION WRENCH

TOP PERFORMANCE

Resistance to static torsion of ring and open end: + 50% respect to ISO rules 1711-1.

Page
52

207 E SCISSORS FOR ELECTRICIANS

THE ONLY ONE WITH INTEGRAL STAINLESS STEEL STRUCTURE

Flexural strenght 180 Kg.

Page
66

POWER ASSIST SCREWDRIVER 324 XP SPEED OF THE BATTERY, ACCURACY OF YOUR HAND

High resistance nylon

EN 60529

Bits holding elastics

324 XP/B16
U03240801

16
PIECES

Bag with power assist screwdriver and bits

- High resistance nylon bag with belt hook
- Bits holder elastics and USB-C cable pocket

POWER ASSIST SCREWDRIVER

300 RPM
0,9 Nm

ITS SPEED
Works with 300 rpm speed coming from the electric engine.

YOUR ACCURACY
Close the tightening with the accuracy of a standard screwdriver.

10 Nm

Brake bleeder

- For changing, filling and bleeding the circuit of brakes on cars and industrial vehicles
- Device designed exclusively for brake fluids DOT 3, DOT 4, DOT 5.1. No LHM.

TECHNICAL CHARACTERISTICS

Operating liquid system	Peristaltic pump (no direct/liquid contact, no air pressure on liquid)
Power supply	12 V (alligators clips)
Tank capacity	10 liters
Pressure limiting device	4 bar
Elastic spiral hose	4 m (elastic)
Power cable	4 m

Supplied with:

- spare gaskets
- 1 multi-diameter cap 44-45-46 mm (2847 N11)
- 1 tank for oil recovery.

890 N U08900002

Battery tester 12V

- Allows testing of the battery health, starting system, and charging system
- Usable with 12V batteries, with capacity 100-2000 CCA, BCI, CA, MCA, IT, SAE; 100-1400 DIN, IEC; JIS 26A17-245H2
- Enables testing of standard (Lead-acid), GEL, EFB, Flat AGM, Spiral AGM, Lithium batteries
- Backlit screen
- Cable length (including clamps): 94 cm
- Reverse polarity protection
- 8 selectable languages: Italian, English, German, French, Dutch, Russian, Spanish, and Portuguese
- Battery can be tested both onboard and off the vehicle
- The tester provides 99.5% accurate results

- Shock resistant plastic casing with swivel bracket for attachment to wall
- Can also be used outdoors
- Polyurethane/PVC hose

TECHNICAL CHARACTERISTICS

Hose length	16 m
Internal hose diameter	10 mm
Maximum operating pressure	15 bar
Length of feeding hose	1,5 m
Output threaded male connecto	3/8"
Average air consumption	450 l/min@7bar

2006/42/CE
ISO EN 12100:2010

COMPRESSED AIR

16 m cable
Ø 12,5 mm
