

# X-GRIP SELECTION 2025

EN

# XGRIP

65/2025

## ALL THE ADVANTAGES OF X-Grip TECHNOLOGY

### DAMAGED SCREWS

X-Grip allows you to work effectively on both new and heavily damaged screws: the tool will not lose its grip on the screw, enabling you to continue with your work.

### TORQUE TRANSMISSION

The grip that the X-Grip profile exerts on the head of a new screw allows for the transmission of a higher tightening torque compared to standard profiles. This is a real advantage when dealing with a new screw tightened with high torque, making it difficult to loosen.

### PREVENTS DAMAGE

X-Grip profiles are designed to prevent damage to the profiles of new screws. By using X-Grip tools, new screws will have a longer lifespan.

# COMBINATION WRENCH 285 X

## **INCLINED OPEN END**

angled at 15° as regards to wrench axis.

YouTube

## **DOUBLE T SECTION**

Excellent resistance to flexion.

## **SPECIAL RING SHAPE**

Ideal for operations on nuts difficult to reach.

30%

## **+30% LONGER THAN A STANDARD COMBINATION WRENCH 285**

It allows to apply a torque of 30% higher than the standard key.

## **SPECIAL X-Grip PROFILE**

*Effective even on heavily damaged screws. On new screws, it transmits greater torque and preserves the screw profile's lifespan.*

BIMATERIAL GRIP**

**NEW**

### JAWS WITH SPECIAL INTERNAL PROFILE

*Allow a frontal grip on  
diameters up to 15 mm.  
Effective even with little  
residual material to grip.*

**151 X**  
**U01510160**

#### Combination pliers with special X-Grip jaws

- Jaws with special inner profile for front gripping of screws or threaded rods up to a diameter of 15 mm
- Also ideal for front gripping of small hexagons
- Effective on flat material as well, thanks to the 4 front contact points
- Side serrated groove for gripping round or hexagonal material
- Cutting edges further induction-hardened
- Compact head for excellent accessibility
- Allow cutting of soft, medium-hard, and hard metal wire
- Open hinge with forged joint
- Ergonomic bi-material handles
- Blackened finish with milled surfaces

**NEW**

**UNIVERSAL MULTI-GRIP  
JAWS WITH  
INTEGRATED CUTTER**
